## Which is the Most Important— Your Personal Comfort or the Winning of the War?

If we are to win the war, all of us must sacrifice our personal comfort to a certain extent. If loaning your money to the Government means some personal sacrifice, are you willing to do it?

Your response is the answer to the question above. The Government has made it easy with War Savings Stamps.

# IT'S RAINING NOW

That money you have laid away for "a rainy day"—wouldn't you give every nickel of it to keep a Hun's knife away from your boy's throat?

Well, the Hun wants to get here with his knife—and the "rainy day" is here—its raining now, raining bombs and shrapnel upon our boys "over there."

You don't have to fight, but—

Your son does, or your brother who is now across the way— or the kid now in khaki to whom you used to give pennies a short time ago.

## June 28th National War Savings Day

On that day the nation calls upon you, not just your neighbor—but you—to pledge yourself to the purchase of a certain number of War Savings Stamps during 1918.

Lend your money as freely as they are giving their lives.

# YOU?

Will you greet the Fourth of July with a happy consciousness of a good deed well done?

June 28th has been set as National War Savings Day. Your country expects you on that day to pledge every penny you can, up to \$1,000, toward the purchase of War Savings Stamps.

The price of American citizenship is no longer cheap. A new hour has struck. The crash of war has ground all semblance of cheapness out of being an American. We must pay the price now.

On June 28th, Your Country Asks You to Balance Your Patriotic Cash Account

Every penny you withhold, that you are able to lend, extends aid and comfort to the enemy.

No legal summons will compel payment. You are called to payment by the higher, more chivalric summons to volunteer your pledge to purchase this year every dollar's worth of War Savings Stamps you can.
